

Blood Donation Camp at Our Campus

A blood donation camp was successfully organized at our campus in association with **Rotary Club Berhampur** on **20-03-2026**. Prior to the camp, our students conducted awareness drives in nearby villages, educating the community about the importance and benefits of blood donation.

The event witnessed the collection of **116 units of blood**, thanks to the enthusiastic participation of donors. We extend our sincere gratitude to the **Medical Officers of MKCG** for their invaluable support and coordination in making this initiative a success and to the **student and faculty coordinators** for their dedication in making this initiative a success.

Together, we continue to contribute towards saving lives and promoting social responsibility.
