

## Visit to Marillac Mercy Home, Ankuli, Berhampur

**An Outreach Programme Conducted by ESSA (Electronic Science Students Association) Club**

On 04 October 2025, the ESSA (Electronic Science Students Association) Club, in association with the students and faculty members of the Departments of Electrical & Electronics Engineering (EEE), Electronics & Telecommunication Engineering (ETC), and Applied Electronics & Instrumentation Engineering (AEIE), organized a visit to Marillac Mercy Home, Ankuli, Berhampur.

The visit was organized with the objective of promoting social responsibility, empathy, compassion, and community engagement among students. The students and faculty members spent valuable time with the elderly residents, interacting with them, listening to their experiences, and sharing moments of happiness and companionship.

To make the occasion lively and memorable, the students presented a variety of cultural programmes, including songs, dance performances, and musical instrument performances. The performances created an atmosphere of joy and enthusiasm, and the residents warmly appreciated and participated in the celebrations.

The visit provided the students with an opportunity to understand the importance of care, respect, kindness, and emotional support for senior citizens. It was a meaningful experience that helped students connect with the community beyond the academic environment and develop a deeper sense of social responsibility.

The programme organized by ESSA Club was a memorable and enriching experience for both the students and the residents of Marillac Mercy Home. The visit concluded with gratitude, happiness, and cherished memories, reinforcing the belief that sharing time, care, and affection can bring immense joy to others.
